DICK TATE

Petition For His Pardon Laid Before Gov. Worthington.

HON. JOHN R. FELLOWS DYING.

Osgood, the Yale Football Player, Killed in Cuba.

ESCAPING GAS KILLS SEVEN PEOPLE.

Frankfort, Dec. 5.—Shortly after noon yesterday there was carried into the executive office to Acting Governor Worthington, the following petition:

"To His Excellency, Governor of Kentucky: The undersigned most respectfully, but most earnestly, petition you to grant a pardon to James W. Tate, former treasurer of Kentucky, now under indictment in the Franklin circuit court for embezzlement."

"Mr. Tate has already suffered long by voluntary banishment, while the sufferings of his innocent family have been even more torturing than his own. He has been a wanderer for years from home, family, country and friends, and has expiated, it seems to us, whatever misdeeds in this particular he may have involuntarily committed.

"Besides this we have every reason to believe that he has been more sinned against than he is sinful. If he took any of the public funds improperly, it was more from an unfortunate excess of timidity of character, and a disinclination to say 'no' to his friends than through any pre-meditated desire to defraud the Commonwealth. We believe that the amount with which he is charged as a defaulter is largely exaggerated, and his presence here would be of much service to the State in getting at the true state of affairs. Therefore we most earnestly petition you to pardon him."

Gov. Worthington has not yet applied the consideration of the application filed. In discussing it this afternoon, however, he said in substance:

"I have always believed that Tate was more sinned against than sinning. But I believe that he owes it to the state to make all the restitution in his power. If I could see Tate, and he would tell me he would do this, I would pardon him."

CIRCUIT COURT.

A Deinruror Sustained Today by Judge Bishop.

The Civil Term Is Over.—Criminal Court Monday.

Judge Bishop today sustained a demurrer to the petition of the Paducah Gas Company, in the case of the Gas Company against Sheriff Holland, to enjoin him from collecting taxes on the plant. Unless the plaintiffs amend the petition, the sheriff will proceed to collect the taxes.

In the case of G. W. Smith against Dr. B. T. Frank, a judgment was rendered in favor of the defendant. The action was to recover a homestead from some property purchased by Dr. Frank at a commissioner's sale.

Mary S. Potter was granted a divorce against S. Monroe Potter, and granted the custody of two children. Several judgments were filed and there will be no more civil case considered until next January.

COOL NIGHT OF IT.

A Forsaken Pair Camp on Island Creek Bank.

Late yesterday afternoon a poorly clad woman, accompanied by a girl about 12 years of age, appeared in Mechanicsburg. They were strangers, and seemed to have walked a great distance.

They located themselves on the bank near Island Creek, and built a fire, remaining there all night; exposed to the cold and compelled to sit on the damp ground before the fire until daylight.

A great many people saw them, but no one knew who they were not from whence they came. They left after daybreak.

Trouble Between Boys.
This afternoon Machinist Emery, of South Sixth street, applied to Judge Sanders for a warrant against a son of Officer Wheels, whom he charges with striking his little son on the head with a rock. There is a large gash in the little fellow's head owing to the age of the boy's nose.

Only America Recognized.
London, Dec. 5.—The Constantinople correspondent of the Daily Mail heard that the Porte has decided to decline the payment of all claims for indemnity for Massacres except those advanced by Americans.

Suffocated by Gas.
Boston, Dec. 5.—Seven people in one house were suffocated last night by escaping gas. As usual, some one blew out the gas.

Killed By the Spaniards.
Havana, Dec. 5.—Word has reached here of the death of Osgood the famous Yale foot ball player. He had joined the insurgents, and was killed in battle by the Spaniards.

VERY DARING.

ARSENIC
In the Bread Eaten By a Hundred Milwaukee Families.

Milwaukee, Wis., Dec. 5.—What is thought to be an attempt at wholesale poisoning, in a large measure successful, was reported to the health department yesterday, when information was given of the sudden and serious illness of about 100 families, numbering between 500 and 600 persons, living in the northwestern part of the city.

The cause of the sickness was traced to bread sold at a bakery owned by Otto Fieglestaaler, which has a very large trade. Last night an analysis of the bread showed that it contained arsenic. The 600 persons poisoned are living, but a large number of cases are considered serious, if not critical.

The police are convinced from the investigation tonight that arsenic was placed in the bread with intent to cause the death or serious illness of Fieglestaaler's customers, with the object of ruining his business.

STURGIS POSTOFFICE ROBBERY.

The Two Robbers Took Their Time and Got All In Sight.

GOVERNMENT DETECTIVES AT WORK.

Postoffice Inspector J. W. Vickery was in the city this morning en route up the Illinois Central from Mayfield and other points below.

"I always leave this end of the state for the last," he said to a Sen. representative, "and when I do come down you may be sure that I find a large amount of work accumulated. I have to often look up all kinds of government officials and ascertain if the surrenders are worth the amount represented in the words."

The inspector has just been to Sturgis investigating the recent post office robbery there. According to him it was one of the most daring ever perpetrated.

Postmaster Will Dyer was at work on his books when two men entered and covered him with their pistols. A bi-metallic league was in session just across the street, and a drug store was open not far away. The robbers compelled him to go to the front door, allowed him to put his hand in his pocket and get his key, and then compelled him to lock the front door.

Removing a stout string from the wall, they securely tied him in a chair, and told him if he attempted to give any alarm they would blow his brains out. They went to work then and deliberately took all the cash in sight, about \$200 and about \$450 in stamps. They withdrew to a back room and divided the spoils, returned to the room where the helpless postmaster was bound in the chair, and after warning, delivered another admonition and left. The postmaster dragged himself and the chair to the front door, unlocked the door with his hands behind him, and crept across the street, where he was cut loose and told his story.

"Don't you think that story is a little crazy?" the inspector was asked.

"Well, it does sound like a fairy tale, but the postmaster is a man of good reputation, and besides the account he gives is quite possible. Of course an investigation is being made, but no clue has not yet been obtained."

According to the inspector's information the men were masked, and the postmaster attempted to engage them in conversation, but they wouldn't talk except to tell him to keep quiet. Government detectives are at work on the case.

BY APOPLEXY.

Chef Tatro In a Critical Condition.

Other Notes of the Sick and Injured.

Chef Tatro, of the Palmer, is in a dangerous condition at his residence on South Sixth street.

Yesterday morning about 2 o'clock he was struck by apoplexy, and came near dying then. Little improvement was visible last night, but today his condition is not so bad. If he recovers it may be ten days before he is out again.

Mr. Adrian Grief, of near Clark's river, is just out from a siege of erysipelas.

Several days ago his hand burned, and in fighting fire he was severely burned on the face, his injuries developing into erysipelas.

Bob Grief, a brother to the above, is slowly improving from an operation recently performed upon him. He was carrying salt several weeks ago and attempted to carry a whole barrel. He succeeded in getting away with the first one, but when he swung the second one to his shoulder something snapped and he gradually grew worse until an operation was performed. He expects to be out again by Christmas.

Yesterday afternoon Master Dow Wilcox was handling a shotgun at the residence of his father, Mr. L. D. Wilcox, corner of Court and Sixth streets, when the trigger caught on a button of his coat and the gun was discharged. The bullet entered the right foot between the great and second toe.

Two Wives.

J. J. Hendricks Seemed to Be Well Supplied.

J. J. Hendricks is said to be in trouble at his home three miles below Birmingham, Marshall county. He seems to be an uxorious gentleman, having two robust wives, one of whom unexpectedly came in from St. Louis yesterday.

He was in the law business formerly, and he and his first wife separated, she going to St. Louis. In the meantime, about two years ago, Hendricks married Mrs. Dink Petway, a widow, of near Benton, with several

farms and a strong objection to living single.

Yesterday the St. Louis wife returned but her erstwhile husband refused to be reconciled, and left the abode of his last wife, who chased the interloper with a pistol.

Hendricks is still away and the St. Louis woman is in Birmingham nursing her wrath and considering the advisability of getting a warrant for bigamy against the destroyer of her happiness.

Depot at Cerulian Springs a Total Loss.

Daring Act of Scoundrels on the O. V. R. R.

The depot at Cerulian Springs was looted by robbers last night about 11:30 o'clock, and burned to the ground. The depot is on the Ohio Valley railroad, and the loss is at present unknown.

So far as known no clue has been obtained to the perpetrators of the robbery and arson. A large amount of money was taken before the robbers put the torch to the building.

SATURDAY, DEC. 5, 1896.

MCKINLEY gets one vote and Bryan two in Wyoming. South Dakota goes for Bryan by 182.

THE official count of Massachusetts gives McKinley a plurality of 173,255. Mr. Harrison's plurality in 1892 was 26,001.

If, as stated, Mr. Bryan has fixed the price of his lectures at \$3000 and expenses, his head must have swelled even more than he has been credited with.

THE gold reserve is steadily increasing, same being nearly \$132,000,000. National bond issues in times of peace are a thing of the past.

DURING the month of November the silver coinage amounted to \$1,914,000. That's the way silver is being demonetized by sound money men.

GOMEZ is thundering at the gates of Havanna, while Weyler is conducting a make-believe campaign against Macero, and slaughtering non-combatants.

A COTTON mill employing 1,000 operatives will be built at Fitzgerald, Ga. Such a mill would be a valuable addition to Paducah's industries and a good investment for the company that would build it.

THE willingness, almost eagerness, of Corbett to endorse the decision of the referee, declaring Sharkey the winner, is rather suspicious, and will strengthen the growing belief that Corbett is afraid to meet "Lauby Bob" Fitzsimmons.

No other president the country has had has taken the people into his confidence so little as has President Cleveland. The gravest errors of policy Mr. Cleveland has committed have been those he has committed by stealth, so to speak.

THE city press is now publishing as a fact the probability of the removal of the Illinois Central shops from Paducah. Thus our city is getting more advertising than she warrants. What good can come of insisting on a calamity which the railroad officials deny, is not apparent.

THE silver Democrats are reading the sound money Democrats out of the party some more. Now some of them actually deny the right of a sound money Democrat to vote for a silverite. The admittance will probably be headed by the sound money Democratic members of the legislature.

JOHN G. CARLISLE has been honored in an unexpected manner. A new government ferry boat plying in New York harbor has been named J. G. Carlisle. The boat is a model of its kind and a nautical beauty. Now let another ferryboat be christened Joseph Clay Stiles Blackburn and the angel of Peace will flutter its white wings unscored.

It is stated the "Amazons," or female Cuban soldiers in Cubans' cause will be shot, just as are the male captives. While there can be no difference in the legal status of the two, and if one is liable to execution the other must be likewise liable, yet there is something excessively revolting in the one case that attaches only in a lesser degree to the other. There is nothing too atrocious for the Spanish governor-general in Cuba to do.

The extension of the civil service rules by President Cleveland have been so great that of the hundreds of consumer posts to be filled by appointment of the president but fifty-three are now vacant and subject to the operation of the civil service commission, and subjects

to appointments in reward of political services. They are at present filled with Democrats, who are presumed to hold life positions. It is within the range of possibility that Mr. McKinley may look at the matter differently, however.

THE advantages of our Kentucky climate become more apparent with each succeeding season. In fact states in the Union have more equable climate than the northern tier of the Southern states. The blizzards that freeze up the Northwestern states become mild zephyrs by the time they cross the Ohio. The tornadoes that break the monotony of a western summer seldom venture into Kentucky, and then only to taper off. The northers that reverse the seasons without notice on a summer's day in Texas are entirely unknown here. Protracted droughts are remembered only by the oldest inhabitants. In winter the temperature drops just low enough to purify the atmosphere.

LEIT. GOV. WORTHINGTON when he arrived at Frankfort to assume the duties of Governor during the absence of Gov. Bradley, facetiously told a reporter that, if the papers complained that he was not granting pardons fast enough, he could say that "the old man isn't feeling very well." But seriously, has not the pardoning power been used a little too generously by the various Governors of Kentucky? The ninety and nine guilty men go free before the innocent man is convicted in this State. The pardoning power is an extraordinary prerogative and is given to the Chief Executive that justice may be meted out when later developments have proved that the judgment of the court was not in accordance with all the facts; or in those rare cases when public opinion demands the extension of mercy that the courts are powerless to grant without establishing a dangerous precedent. Any other use defeats justice, discourages the public prosecutor and engenders a more reckless spirit among the criminal classes.

IS another column will be found a communication on the subject of the much mooted extra session of the Kentucky legislature. It is not entirely in accord with the views of the SES, but is given place in pursuance of our desire to be entirely fair in the discussion of all that pertains to Republicanism. Why should the state be put to the expense of six or seven hundred dollars a day to elect a free silver man, when Gov. Bradley can fill the vacancy by appointment at no expense? What can insure us a sound money senator?

It is proclaimed by the friends of Mr. Hunter that he has the nomination, also that his friends will support him always, and it is also known that not a few free silver Democrats will support him in preference to Carlisle or any other Republican or sound money man. It is also well known fact that Mr. Hunter signed a free silver agreement last winter.

What greater service could the Governor, who holds his commission from the people, perform than to prevent the election of a free silver man to the United States Senate, which he did last winter in calling out the militia to preserve order and peace and has since received the plaudits of all liberty-loving people.

The last two elections in Kentucky have made a great many converts to Republicanism, and to no man is due more honor for this than to Gov. Bradley. His fearless honesty has won the admiration of his people and I repeat he can serve the State better than to prevent the election of a free silver Republican or Democrat.

THE RAIL BROKE.

Col. Will Porter, of Louisville, Painfully Hurt.

Was Hunting Yesterday, When He and a Barbed Wire Fence Got Together.

Col. Will Porter, the handsome "Battle Ax" boss, will not venture forth into society again for several days.

He is compelled to wear a bandage about his face, obscuring all evidences of putrid ulcer except his eyes and mouth.

Col. Porter and Messrs. Thompson, Short and Lyons, of Louisville, were hunting out near Lovelaceville several days ago. They had splendid sport, and nothing occurred to mar the pleasure of their outing until yesterday afternoon, when Mr. Porter attempted to get over a barbed wire fence, by climbing a rail. The rail broke, and he was precipitated upon the fence, cutting a painful and disfiguring gash on his nose.

Mr. Lyon accompanied him to Paducah last night, and the injury was dressed.

The remainder of the party returned from the hunt today.

MORE EVIDENCE.

Nick Mullen May Not Be Guilty of Perjury.

The Case Was Continued Until Monday Morning.

The case against Nick Mullen, colored, for perjury, was continued by Judge Sanders this morning, until Monday, on account of the absence of witnesses.

A colored man named Charles Moore, alias "Kid" Johnson, was not present. He is a railroad man, and the recognizance against him of \$100 was declared forfeited, and an attachment issued.

Judge Sanders said he didn't want the defendant held over unless he was guilty. He was recently tried for shooting at Rio Miller, colored, near Phil Stephen's saloon, on Washington street. He swore he did not do the shooting and had no pistol. The evidence showed that he did, but since it has developed that some of the witnesses are ex-convicts, and it is said that the facts in the case are that some one shot at Mullen, instead of him shooting at some one else.

A SEA TRAGEDY.

The Startling Story of the American Merchant Marine.

The sea has ever been a favorable scene with romancers for desperate conspiracies and tragic crimes. This has been due to the seclusion which it offers and, also, perhaps, to the traditions of piracy which hang about it. There was a time when the line of demarcation between the pirate and the peaceful mariner was not very sharply drawn, and the late Prentiss Milford, who grew up in a seafaring town and had even served on shipboard before the mast, once wrote an article maintaining that the relations which still prevail between the mariner and the crew of a ship are a relic of the days when all seafaring men were probably pirates. Possibly a just explanation of the harsh treatment to which sailors are subjected would be found in the

rules by Prentiss Milford, which have been so great that
